When you first log in, you will be brought to the Dashboard.

The Dashboard allows you to see orders and quotes.

1) The order box along the top shows all of your orders and also the quotes that we input. 2) The quote box below allows you to see the quotes that have been entered from remote users that are setup within your company. We cannot see these.

Once your quote is uploaded to an order, it will change the number into our next available order number.

You can see the status of your order to the far, right.

To begin, you must first input a quote.

3) click on create quote

If your unit requires grids:  
 1) Select the width of the grids  
 2) Select the color  
 3) Select the muntin configuration. The system automatically gives you a recommended configuration. To change, type over each number. It is extremely important to have the \_HX\_V filled in. If you do not require grids on one dimension, please input a zero. EX: 1HX1V  
 After you have input your required grid configuration, hit the tab key or enter and then you will see your new configuration on the right.  
 \*Please make sure there is always an X to separate them\*  
 5) When you are finished, hit add
